The thought of putting oneself out there into a sea of mysterious people who may be judgmental or inclined to reject you - it's not an easy idea to stomach. I think that this book will be a powerful and straight-forward resource for anyone ready to take the plunge into the world of online dating. Neo does a great job demystifying the process of signing up for dating sites, how to present oneself both honestly and in an appealing way to prospective matches, and how to eventually make the switch to flesh and blood meetings. The voice flows well, and the information is presented in a very approachable way. I recommend this book to anyone looking into the world of online dating. It is no longer the intimidating, unrealistic world that it could be, and this book is a great first step! 1 of 1 people found the following review helpful.
